

CHANCEY HERBOLSHEIMER, PHD

Mixed-Methods Researcher with 10 years of human-centered research experience

PhD Research Scientist, Vanderbilt University

Aug 2019 – Present

- Managed project examining state policy, state demographics, abortion policy, and health outcomes
- Created original panel data set covering 50 states and 15 years and conducted statistical analyses
- Led interviews with justice-involved women on their social networks and health experiences
- Co-wrote two manuscripts examining stigma against transgender and gender non-conforming parents
- Conducted data cleaning, analysis, and manuscript preparation for NEA-funded grant on non-profits
- Collected literature and assisted in grant writing for project on COVID and political affiliation
- Assisted with survey creation and translation into Spanish for a project on needlecrafts
- Recruited and managed expert reviewers as part of peer-reviewed sociology journal editorial team

Intern, Advancing New Standards in Reproductive Health

May 2023 – Sept 2023

- Compiled original data on abortion services and cost in the United States
- Conducted phone calls to clinics to verify information accuracy
- Collaborated with interdisciplinary team to update longitudinal dataset

Policy Intern, RAND Summer Associate Program

May 2022 – Aug 2022

- Trained in conducting policy analysis for a variety of stakeholders in non-profit environment
- Collaborated with an interdisciplinary team to conduct a program evaluation on abortion services
- Created original panel data set measuring abortion policy to assess state restrictiveness
- Conducted analysis of interviews to compare coding strategies with other team members
- Assisted in translating research findings to a broad policy audience

Course Instructor, Belmont University

Aug 2021 – Dec 2022

- Created and instructed three sociology courses focused on law, reproductive health, and inequality
- Utilized online videoconferencing and designed online portals to maximize learning potential
- Educated students in social research methods and diversity trainings

MA Research Scientist, University of Oklahoma

Aug 2017 – May 2019

- Conducted a content analysis of state reproductive policy statutes to code variables on legislation
- Created original panel-dataset covering 111 countries and 15 years to examine incarceration trends and world development indicators
- Received in-depth statistical training on a variety of methods and datasets
- Assisted in teaching a course to incarcerated women and college students at a correctional facility

EDUCATION

PhD Sociology (2024)
ANSIRH Research
Incubator (2023)
Certificate: College
Teaching (2021)
MA Sociology (2019)
BA Liberal Arts (2015)
AA Liberal Arts (2014)

SKILLS

Program Evaluation
Public Speaking
Interviews
Content Analysis
Survey Methods
Community-Engaged
Participatory Methods
Grant Writing

RESEARCH

Policy Analysis
Social Determinants
of Health
Health Equity
Reproductive Health
Gender
Intersectionality
Marginalized Groups

RESEARCH IMPACT

5 peer-reviewed publications
8 conference presentations
182+ manuscript reads
9 research awards/grants
14 citations

SOFTWARE: STATA, SPSS, RedCap, Qualtrics, MAXQDA, Dedoose, Microsoft Office, Google Sheets
